

Message from North Muskegon Public Schools

Norse Nation-

It has been said, either you stand for something or you stand for nothing. As a school community, we will continue to stand for what is right and just. We will stand for inclusion, equity, education, equality, kindness, and fair treatment. We will stand shoulder to shoulder with our black and brown community members in their peaceful protest. We will stand for a better world for our children, our community, our Nation and our world.

Norse Pride is alive and well and has always been a cornerstone of our community. If one Norseman is hurting, we all feel pain with them. Right now, across our nation and community, many families are hurting as generations of racial injustice are coming to a head throughout our great country. We all feel this pain. We support you, we see you, we hear you, and we value you!

NM is a better community because of our diversity. We are stronger together. That is the key, and we must strive to model this for our kids. Together we will find a way to build a better world for our kids. Together we will promote positive change, and together we will stand for a better tomorrow for all families.

Please be kind to ALL!
